WORK EXPERIENCE

AI Automation Intern| Jivrus Technologies| Bengaluru, India **May 2026 – Sep 2026**

- Built AI-powered automation workflows using n8n for business process automation and data handling.
- Developed a RAG-based document Q&A workflow using Qdrant, Hugging Face embeddings, document extraction, and AI agents.
- Built an AI-powered website chatbot using n8n and Google Gemini for real-time visitor interactions.
- Automated website inquiries using webhooks, Google Sheets, Gemini AI, and Gmail for response handling.

Web Developer Intern| Nano Stream Technologies | Bengaluru, India **Feb 2026 – Jun 2026**

- Developed responsive frontend interfaces using React.js, TypeScript, and Tailwind CSS for real-world web applications.
- Built reusable UI components and dashboard modules for Orders, Coupons, Analytics, Users, and Support in the Svasthya Fresh admin system.
- Integrated REST APIs for dynamic data handling and real-time content rendering, while improving responsiveness and user experience.
- Designed and developed the Vidhyardhi School website using Antigravity, creating responsive and user-friendly interfaces across desktop, tablet, and mobile devices.

WordPress Developer | El Mundo Sports | Bengaluru, India **Aug 2024 – May 2025**

- Independently designed, developed, and launched the official El Mundo Sports Club website using WordPress and Elementor.
- Built responsive pages and managed website content, forms, plugins, and ongoing website maintenance.
- Implemented on-page SEO using All in One SEO, including meta titles, descriptions, headings, keywords, and internal linking.
- Used Google Search Console to monitor organic search performance, achieving 839 clicks and 48K impressions, with an average CTR of 1.7% and average position of 6.4 during the measured period.
